

PSY 218 - Health Psychology

Assignment For The Information Superhighway

This assignment is designed to introduce you to the computer skills of searching the Internet and the World Wide Web (WWW). Work for this assignment may be done in the Independent Study Laboratory (ISL), in the Scottsdale Community College Library, or at home if you have access to the Web. Once you have completed this assignment you must write up your findings and turn them in to Dr. Gray.

Objectives

Learn how to “surf” the net and find two web sites on the WWW that have to do health-related topics of interest to you.

Tasks

You should obtain two web sites total. Include the following information for each site you find:

1. The name and the address of the site
2. A description of what information the site provides.
3. Some particular piece of information you uncovered from looking at this web site (i.e., something specific you learned from viewing this site).

Format

This assignment must be **typed, double-spaced** on 8½ " x 11" paper. Place your name in the upper right-hand corner of your paper. If there are multiple pages, then the pages must be **stapled** in the upper left-hand corner. Plagiarism (copying from another source) is grounds for a paper to be rejected. You may print out information from the web sites you used and attach it to your paper as supplemental materials. **Papers that do not follow these format criteria will not be accepted.**

Due Date

This assignment is due on **Thursday, March 24th, 2005.**
