

Hello all!

My name is Thomas Williams, and I will be your advisor for this semester. I am really looking forward in getting things rolling and doing many fun activities together.

The club is designed, so that you can decide which activities, charities, fundraisers or other events you would like to get involved in. Some suggestions are: Clean up hikes, participation at the SLF Fall Follies and SLF Spring Fling (dates will be announced). We also should probably plan events around dates such as the "America Recycles Day" on November 15th, "Earth Day" April 22nd, and other dates that you might see a value in holding any sort of event, might it be for fundraising purposes or maybe just to inform the campus community and the general public about a topic that is of interest to you.

We will need some volunteers that would like to get very active in the club and take the lead in planning events or any of the other activities mentioned above. We have a president, vice president(s) of events, vice president(s) of fundraising, and secretary position.

If you are interested in an officers position, please let me know and I will send you the "duties" of that position. Those "duties" are really just an outline what needs to get done to make the club work, if you are good at events but are taking on the secretaries position, you can of course help out the vice-president of events or help out whenever you have time and wherever you see an interest in. Also we would like to avoid that, you can split a position with a maximum of one other member if this will make things easier for you.

We will need one committed person that can attend the SLF meetings. The reason for this is that a constant participation in those meetings will assure us an additional \$100 for our club fund and will assure us that our funds are matched by SLF when we do fundraising events.

Then of course is the topic of our meeting times. Our first meeting will be this **Friday at noon at the Azurite Room SC 172**. If you do not know where to find this room just email me or go to http://www.scottsdalecc.edu/maps/scc_campus_map.html and click on the **SC Building**. For now I have this room reserved every Friday at this time. I am aware that this time and day might not work well for all of you. So here are some other suggestions.

Monday at noon, Tuesday at noon, Wednesday at 3pm, Thursday at 3pm.

Please let me know which day and time of the ones suggested would work best for you. I will try to organize a room for the time that the majority chooses will be the best.

I am currently updating the Green Website. There will be a link especially for the Green Club http://www.scottsdalecc.edu/green/scc_s_green_student_club.html. All our events, club officers contact information, and other valuable and interesting information will be posted on that link.

Just on a general note. As a Student Club we will be working as a team. Although we will try to accommodate everybody's ideas, we might not always be able to do that, if the majority decides to go with a different idea.

Again, I would like to welcome you to SCC's Green Club this semester! I am sure we can make everybody here "green" behind their ears!

I am looking forward to see you Friday.

Thomas
